Women in Missouri's Workplaces

There were more than 1.4 million women reported in Missouri's workforce throughout 2007, or more than 46% of the state's labor force. This report aims to look at the role of women in Missouri's workplaces based on occupations found to be traditionally female-oriented versus those deemed more male-oriented.

Women in Non-traditional Jobs -

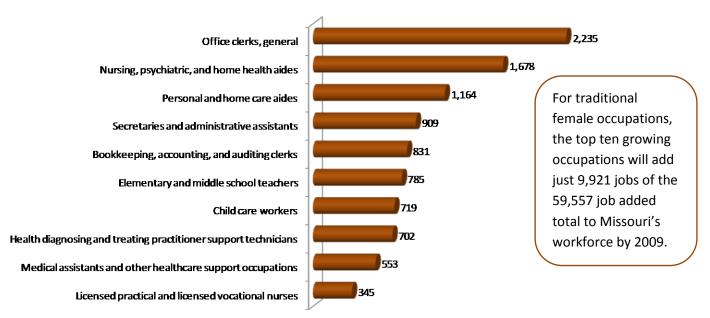

Women's 2007 Employment in Top Male Traditional Jobs

In male traditional jobs with the highest total employment, the largest percentage that women will make of the workforce is 23.4%. In some occupations, women only amount to 0.7% of hired employees.

¹ Traditional and non-traditional jobs were determined through data gathered from the 2007 American Community Survey with the U.S. Census Bureau. Occupations with female employment totaling less than 25.5% are declared non-traditional, while occupations with 75.5% or more are traditionally female occupied jobs.
